WORK EXPERIENCE

Bodsphere

Full Stack Developer

Feb 2025 - Aug 2026

- Developed and maintained scalable full-stack features using **React.js, Node.js, Express.js, MongoDB, and Redux Toolkit** across both the customer-facing platform and admin portal, serving **2,000+ active users**.
- Optimized backend performance by refining MongoDB queries and implementing **Redis caching**, reducing API response times by **30%** while improving application responsiveness.
- Built secure authentication and payment workflows using **Redis** for OTP management, IP-based rate limiting, **Cloudflare**, and **Google reCAPTCHA**, strengthening platform security against abuse and automated attacks.
- Engineered and maintained end-to-end subscription and payment infrastructure using Stripe and Razorpay, supporting **1,000+ active subscribers** with recurring billing and localized Stripe Adaptive Pricing across **128 countries**, alongside automated webhook processing and billing workflows for domestic and international customers.
- Implemented reliable asynchronous job processing with **BullMQ** for payment webhooks and background tasks, leveraging retry mechanisms to improve webhook success rates from **90% to 100%**.
- Contributed to an event-driven architecture using **Apache Kafka** for scalable inter-service communication and asynchronous processing.
- Created core product features including **leaderboards**, subscription management, and administrative workflows while collaborating within an Agile team of **5 developers**.
- Architected centralized state management using Redux Toolkit across **34+ features and 45+ components**, streamlining shared data handling and improving application consistency.
- Collaborated closely with **Android and iOS developers** to integrate shared APIs and implement **deep linking**, ensuring a seamless cross-platform user experience.
- Participated in Agile development, code reviews, testing, and production deployments within a **5-member engineering team**.

AI4SEE PVT LTD

Full stack developer Intern

Aug 2024 - Jan 2025

- Enhanced full-stack features for an internship portal using **React.js, Node.js, Express.js, and MongoDB**, including RESTful APIs and database management.
- Integrated **Razorpay** payment gateway and optimized frontend performance using **React.js** and **Tailwind CSS**, improving the overall user experience.
- Led a team of **3 interns**, coordinating task allocation, collaborating through **Git**, and contributing to the successful delivery of project milestones.

EDUCATION

Bhagwan Parshuram Institute of Technology (GGSIPU)

Bachelor of Technology (IT) - 8.55

2020 - 2024

SKILLS

- **Frontend:** React.js • Next.js • TypeScript • JavaScript • HTML5 • CSS3 • Tailwind CSS • Material UI • Framer Motion
- **Backend:** Node.js • Express.js • MongoDB • Redis • Apache Kafka • SQL
- **Tools & Other:** Git • Docker • Data Structures & Algorithms • C++

CERTIFICATION

- The complete web development bootcamp (Udemy) [🔗](#)
- The React 18 Complete guide 2022 Edition (Udemy) [🔗](#)
- Next.js Certification 2022 Edition
